

emotion

 **rational**

## ■ emotion

The concept of the emotion opens up the kitchen to the living space. With perfect ergonomics as the basis. Minimalist design geared to human movement with the eye-level as the demarcation line. Wall units with new proportions create extra space and together with the recess form a unified whole. A specially developed extractor hood is integral to the aesthetics. Special elements cleverly integrate various kitchen and living functions into the design – whether as a cupboard system, prep area or multi-media station. Stainless steel underframes, matching seating and a swivel table create a room environment that is spacious and lightweight.

**The emotion is created and planned by being combined with other ranges - in particular the verso, cambia, atmos, cult, neos and logic ranges.**

Der 2-Komponenten Mikrolack zeichnet sich durch hohe Widerstandsfähigkeit aus. Er verleiht der Farbe eine starke Intensität. Softlack besticht durch seine schmeichelnde, einzigartige Haptik.

Beide Lacke können mit der exklusiven TopTec Oberflächenversiegelung geliefert werden. Durch den Antihaft- und ABERLEFFekt erhält die Front einen optimalen Schutz und ein samtiges Oberflächendesign.
